

# Carmen

*Widely Adaptable Crimson Sweet Hybrid*

**CARMEN** is a Crimson Sweet type hybrid with a darker rind that produces consistently larger fruit than Crimson Sweet. Tested in many countries for several years, Carmen has shown itself to be widely adapted and capable of producing where other varieties fail. Medium-red flesh and small dark seeds, the fruit will ship to distant markets.

<b>Maturity:</b>	85 days
<b>Size:</b>	29 x 28 cm, 11 – 11.5 kg (11.5 x 11 inches, 22-25 lbs)
